

LOST RING--FOUND!

I got a request a few weeks back from a long time family friend pleading for me to help find her daughter-in-law's gold wedding band that was lost last year. I got the opportunity to go to Mount Vernon IL September 27th and search for the lost ring. Once there I got some background story on possibly how the ring was lost and some locations where it could be. Unbelievably within 5 minutes I found the ring! Needless to say I'm beyond excited to be able to give it back. Mom, dad, and daughter-in-law were elated.

After posting my find on Facebook I got a request from a friend in Columbia IL to help find his grandmother's lost ring. His niece had been playing with the ring and lost it. I ventured out September 30th but I wasn't lucky this time and could not locate the ring.--Matt Huntman
